

## Radview

RadView Software develops, markets and supports WebLOAD, the only commercial-grade open source load testing solution for Internet applications. Deployed at over 1,600 customers, WebLOAD features:

- Efficient testing of Web 2.0 applications, including AJAX and web-services;
- Advanced test modeling, including object-oriented (keyword) load testing;
- Ease of adoption and use, including brief JavaScript test scripts, DOM usage, and a simple and affordable licensing.
